TIARA PUZZLE

The extraordinary contract carpet TIARA PUZZLE is at once attractive and extremely durable. It's a highly functional tufted textile floorcovering with no frills. Marked by a densely tufted loop construction it stands out for its artful optic.

TIARA PUZZLE is available in roll goods as well as in carpet tiles. Its color palette was carefully selected to harmonize with up-to-date material combinations. Despite its seemingly unsettled look, TIARA PUZZLE makes for a subtle background easily blending in with existing design elements. Looking at a small sample doesn't give justice to the distinctive image of this product. However, installed in living spaces and offices, TIARA PUZZLE reveals its true beauty and appeal. Let it take you by surprise!

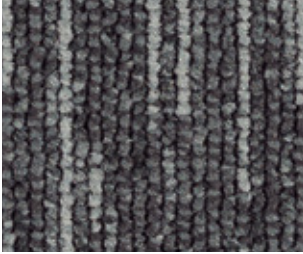

TIARA PUZZLE is made from pigment-dyed Polyamide 6 by Aquafil. The extra stabile color-pigments are applied during the spinning process and thus become integral part of the fiber. This maximizes the performance properties and colorfastness of the finished product even when exposed to extreme sunlight. TIARA PUZZLE also provides excellent cleaning properties and long lasting appearance retention.

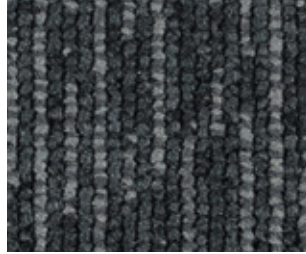

TIARA PUZZLE features the following **exceptional characteristics:**

- The clever optic allows for integration into any room décor
- Carefully selected color palette to harmonize with up-to-date material combinations
- Densely tufted and robust carpet with flame-optic
- The pigment-dye method of the brand yarn Aquafil ALTO CHROMA makes TIARA PUZZLE 602/SL603 an extraordinary contract carpet. It provides excellent cleaning properties as well as fade- and colorfastness. In addition, the soil resistant SCOTCHGARD protection gives TIARA PUZZLE long lasting appearance retention.
- TIARA PUZZLE is available also in carpet tiles, in all stock colors
- TISCA TIARA is a voluntary member of GuT (Institute for environmentally friendly carpet production) and takes an active responsibility for the environment
